RADIUS SINGLE MODEL

Radius is a highly reliable, tough and enduring mobile system for surgical fluoroscopy. Designed for granting the best performances with the maximum affordability.

Radius Single, on the other hand, is a compact and practical C-Arm for surgical fluoroscopy with one orientable 24" LCD touchscreen monitor directly on the mobile equipment (no trolley). Designed for granting the best performances with the maximum affordability.

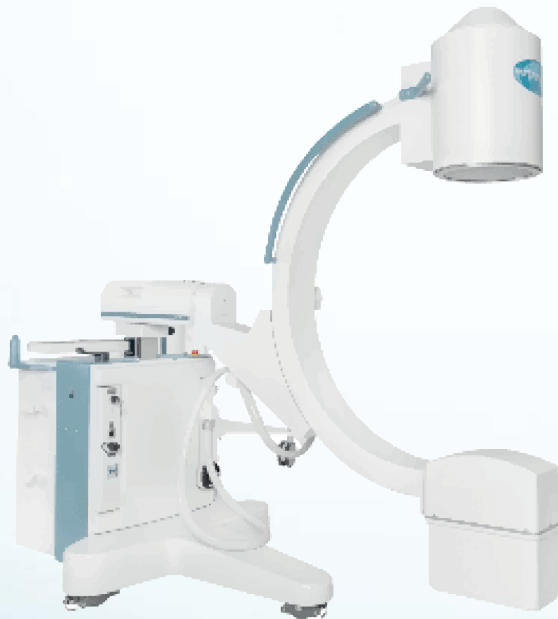

Ease of handling, X-ray parameters, image quality and safety are some of its main peculiarities.
